### Profile

I have 4 years experience working with clients. I have worked on a multitude of web and print based projects for a range of clients providing Web Design (Photoshop, Illustrator) and Development (HTML, CSS, PUG, LESS, SASS, Gulp, GIT, JS, jQuery, PHP, WordPress, Bootstrap, Responsive Layouts), Corporate Branding and Graphic Design.

As a freelance web developer and designer I collaborate with several web developers in Australia, at the same time maintaining clients in Europe and the USA. I am currently working in Ukraine. I am always available to discuss your project over the phone or via Skype.

## Professional Experience

---

Since 2015

### FRONT END DEVELOPER

#### Web Development

- Fixed front end bugs (HTML, CSS, Javascript errors (JQUERY))
- UX tests to test the usability of mobile or websites
- Optimized pages for page speed using Google Page Speed (API) for Apache to obtain higher rankings on Search Engines (SEM)
- Did on site SEO implementations to increase traffic to client websites
- Analyzed traffic and made necessary changes for a better user experience

2014 - 2015

### JUNIOR FRONT END DEVELOPER

#### Web Design & Web Development

- Created and maintained Wordpress based sites and Templates
- Programmed and debugged in HTML, CSS, and PHP
- Modified photos to be used in websites using Adobe Photoshop
- Assisted in creating the GUI of a real estate application
- Created and executed small programming projects

2013

### VOLUNTEER WORK

#### Web Design & Web Development

- Co-developed a vibrant, secure website using interactive features and SEO best practices to optimize traffic, page views and the user experience (UX).
- Created online promotions, press releases and donation forms that increased cash and food contributions from the local community by 53%.
- Linked online donations to the fundraising database.

2013

### STUDENT PROJECTS

#### Web Design & Web Development

- Developed a website for this fictitious clothing manufacturer that included tools for marketing, cross-promotion and email blasts. The site also included an embedded WordPress blog, plug-ins and a custom banner widget to promote new clothing lines.
- Created a website for this mythical, pizza shop that included a slideshow and collapsible sections on the menu page.
- Created a picture viewing website for this fictitious reality company using HTML, CSS, JavaScript, PHP and popular APIs like Facebook, Twitter and Flickr. Added an XML file for captioning.
